EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Melick on 5/12/09.

The application has been amended as follows:

Cancel claims 5 and 6

2. The following is an examiner's statement of reasons for allowance: Applicant's examples are sufficient to show the criticality and unexpectedness that a compression ratio of less than 4 must be used to obtain the recrystallization peak of the claims (see Ex 1 vs. Ex 3), for a blend of a polyester with PBT or PTT, overcoming the 102 based rejection over Majima US 6780482. A search of the prior art shows a range of 1.5-4 for the compression ratio is typically used for polyester extrusion (see US 4774114 Column 3 line 62), however the unexpectedness of the results shown herein obviate such a 103 rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alicia M. Toscano whose telephone number is (571)272-2451. The examiner can normally be reached on M-F 8:00 AM to 4:30 PM.
